for  

COMPANY HISTORY TIMELINE

1984

We started as a subcontractor of Göker Construction Equipment Ind. And Trade Inc. and gained experience in the production of foreign companies such as PEMAT & SIMEM.

1994

We started to make our own manufacturing and designs.

2022

We moved to a larger factory in order to be able to produce faster and more serially.

Nowadays...

As an international company, we have taken our place in the world market on a large scale by producing high quality, serial and fast and we continue our work.

Our strength is from our past

We have been in this sector since 1984.
